# STEWARDS

## OF THE KISHHEALTH SYSTEM

### OUR MISSION

We are the cornerstone of healthcare for the communities we serve – the first choice for service, comfort and safety. As a community-owned health system, the Kish family unselfishly commits to excellence, education and innovation.

### OUR VISION

At KishHealth System we are committed to making this the best place for our employees to work, the best place for our physicians to practice and, most importantly, the best place for our patients to receive care.

### OUR VALUES

Integrity  
Stewardship  
Service  
Quality  
Community

This community report is published annually by the KishHealth System Marketing & Public Relations Department. It is distributed by mail to households throughout DeKalb County and in parts of Ogle, Kane, Kendall and LaSalle counties. If you wish to be taken off or added to the mailing list, please call 815.756.1521 x 153419 or email [dking@kishhealth.org](mailto:dking@kishhealth.org).

# THE ESSENCE OF A COMMUNITY HOSPITAL PATIENT CARE AND BEYOND

We live it and we reward it. From orientation for new hires, to regular Round Robin meetings with employees and physicians, to leadership training for managers and directors, the message is the same. KishHealth System is committed to being the best place for employees to work, the best place for physicians to practice, and, most of all, the best place for patients to receive care.

The patient care piece came into sharper focus at the board level this past year. At a retreat in the spring, members were educated about the many facets of improving patient outcomes and achieving clinical excellence. Board members came away with a new appreciation for the intense work being done at all our facilities to implement proven practices that protect patients from infections and complications and that make patients more satisfied with their experience.

As a result of this retreat, the board gave full support for making quality data readily accessible to our consumers. You can now find "Quality of Care" information at [www.kishhospital.org](http://www.kishhospital.org) and [www.valleywest.org](http://www.valleywest.org).

Beyond day-to-day patient care, KishHealth System has two other roles: improving the health of our citizens and being good corporate citizens ourselves. That's the "beyond" piece in this year's annual report.

We work with other providers and agencies to identify community health needs and determine where we can play a role in addressing those needs. Lack of access to primary medical care and the high rate of cardiovascular disease are two areas where milestones were accomplished this past year. The Community Cares Clinic was opened in DeKalb and the Cardiac Catheterization Lab was opened at Kishwaukee Community Hospital.

In addition, we ramped up outreach through our Community Wellness Departments and continued to support health, fitness, youth, education and economic vitality in all the communities we serve, from Genoa to Sandwich.

KishHealth System, like many other businesses, tightened its belt in 2009. But our dedicated employees, physicians and volunteers continued to make a difference in the lives of thousands of patients who came through our doors.

Thank you for your support, and we welcome your feedback on how we can improve on our commitment.

# ACCLAIMED PHYSICIANS

## MAKING A DIFFERENCE IN THE LIVES OF THEIR PATIENTS AND OUR COMMUNITY

KishHealth System presents its second group of Acclaimed Physicians. Nominations are received from staff, physicians, patients and other members of the community. Recipients are selected by teams of peers, staff and administrators. The awards are presented at a spring banquet.

### Outstanding Service to Patients

#### Dr. David Faulk, Gastroenterology, Sandwich

Dr. Faulk of Sandwich Family Practice is known for his caring and compassion. When nurse leaders round on patients and caregivers, they hear the same comments about him: “He’s such a good doctor. He always takes time with me.” He is described as a technically skilled physician, and patients and staff talk about his ability to communicate in a way that demonstrates an understanding of their emotional and spiritual needs.

One patient who nominated him for the award said Dr. Faulk calmed many of her fears as she faced a severe illness. His patients know that they are not only cared for, but are cared about. He has been on the Valley West medical staff since 2001.

### Promotion of Quality Care

#### Dr. S.W. Chang, Pulmonology and Critical Care, Sycamore

Dr. Chang has been instrumental in advancing the level of critical care at Kishwaukee Community Hospital, working with multidisciplinary teams to address the care of ventilated patients, to improve the care of patients with sepsis (a life-threatening bacterial infection), and to create a cooling protocol for near death patients.

One colleague states what many physicians feel about Dr. Chang, “He has a strong desire for continuous quality improvement which keeps us all moving forward.” Said another, “We are fortunate to have someone of his caliber.”

His commitment to education with nurse colleagues and his generosity with his time are noteworthy and valued by all, patients and staff alike. Dr. Chang has been on the Kish medical staff since 2005.

### Humanitarian/Community Service

#### Dr. John Kostrey, Pediatrics, DeKalb

Dr. Kostrey of DeKalb Clinic has made humanitarian service a hallmark of his 41-year medical career in the community. He has spent at least eight of his “vacations” doing mission work in foreign countries. The trips, paid for out of his own pocket, have been from one to three weeks, providing medical care to children in hospitals, orphanages, schools, churches and homes. In just one day during these mission trips, he reaches 100-120 children.

A dedicated doctor, fluent in Russian, he is committed to this humanitarian work because of what he experienced growing up in Czechoslovakia during World War II. He remembers the hardships and suffering of that time and feels blessed that he can now share his knowledge and experience to improve the lives of children in these countries. His rewards are the hugs and smiles from the children he helps. Dr. Kostrey has been on the Kish medical staff since 1968.

# 2009 NURSES OF THE YEAR

Clinical judgment, staff mentoring and a commitment to evidence-based, compassionate patient care are what distinguish this year's recipients.

## Valley West Community Hospital House Supervisor Cynthia Fox, RN, Trauma Nurse Specialist (TNS)

Cindy, recipient of the Pamela Lewis Nurse of the Year Award, was honored for her advanced clinical skills, strong knowledge base and compassionate care. She continued to pursue an advanced degree and used her skills to coach and develop others.

"She is a professional, peer, mentor and preceptor, and consistently models and exceeds our health system standards of behavior. She reaches out to patients, physicians and staff in her role as hospital supervisor," said Pamela Duffy, Vice President of Patient Care and Medical Staff Services.

Cindy has been a nurse for 18 years, working at Sandwich Community Hospital, the LaSalle County Health Department and Kishwaukee Community Hospital before joining the Valley West staff in 2003. She was awarded a \$500 scholarship from the Kishwaukee Health Foundation's Nursing Development Fund. Pamela Lewis, the award's namesake, was a Valley West nurse manager when she died of cancer in 2006.

## Kishwaukee Community Hospital Maternity Suites Beth Post, Registered Nurse Certified (RNC)

Beth is known for the positive way she handles stress in her professional nursing responsibilities, always smiling, staying upbeat, helping and encouraging others.

She frequently teaches new staff and students and is described as "amazing" by those with whom she shares her knowledge and experience. She incorporates research findings into the care of patients and represents the Maternity Suites Department and Kish Hospital at the state level in her role as HIV coordinator.

Beth goes above and beyond when it comes to customer service. She uses her own time and money to make beautiful crib cards for all of our babies, which families treasure as a keepsake of their infant's stay in the Maternity Suites.

"Beth Post is a stellar nurse. She embraces challenges with an open mind and a positive attitude," said Duffy.

Beth has worked at Kish Hospital for over 20 years and is a registered nurse certified in outpatient obstetrics. She was awarded a \$500 scholarship from the Kishwaukee Health Foundation's Nursing Development Fund.

COMMITTED

# Employee AWARDS

## ACHIEVING SERVICE EXCELLENCE

KishHealth System places a high value on its human capital. We demonstrate this by recognizing employee achievements in attaining organizational goals and role modeling the behaviors that lead to service and operational excellence. The awards are presented annually.

### Karen Sepaniak KHS Spirit Award

Mary Jane Hotopp, Radiology Technologist, Valley West Community Hospital

The Karen Sepaniak KHS Spirit Award is the top employee honor, given to an individual who exemplifies the standards all employees are asked to work by: professionalism, responsibility, positive attitude, communication and service to others.

Karen Sepaniak, who worked at Valley West Community Hospital for nearly 40 years, was the first recipient of the award in May 2007. She died of cancer two months later. Karen was known for going “above and beyond” in everything she did at Valley West. By naming the award in her memory, the bar was set high for all recipients to follow.

“Mary Jane exudes that spirit to patients, to co-workers, and to colleagues across our health system,” said Brad Copple, Valley West and Kishwaukee Hospital President. She has worked at Valley West since 1971.

### Service Pillar Award

Maternity Suites Department, Kishwaukee Community Hospital

The Service Pillar incorporates all aspects of customer and patient satisfaction. In their various roles, members of the Maternity Suites team have hardwired the ability to impact patient experiences in a positive way as demonstrated by 12 consecutive quarters where patients rated the service and care in the top 10 to 15% of the country for fiscal year 2009. Overall satisfaction was at the 91st percentile, which means this department is rated better than 91 percent of the 1,000 hospitals in our patient satisfaction database. The team demonstrated that excellent service depends not only on knowledge and skills, but also on compassion and caring.

From left. **Front Row seated:** Beth Post, RNC; Sara Johnson, Nursing Assistant; Anna Barnes, Nursing Assistant; Jackie Westberg, Nursing Assistant/Receptionist; **2nd Row:** Tami Johnson, RNC; Chris Crane, Receptionist; Lois Lathrop, LPN; Heidi Lindhorst, RNC; Arvada Coleman, RN; Jackie Mascenic, RNC; Jill Wood, RN  
**3rd Row:** Mary Goken, RN; Sue VanDerHeyden, RN; Helen Kempton, RN; Cindy Mock, RN; Missy Riggs, Nursing Assistant; Jen Campbell, Nursing Assistant/Receptionist; Kevin Poorten, KHS President & CEO

### People Pillar Award

Mary Johnson, Lead Order Entry Specialist, Kishwaukee Community Hospital

The People Pillar focuses on making KishHealth System a great place for people to work.

Mary has helped create a positive and supportive environment for co-workers, patients and family members. Her knowledge and desire to help others has been instrumental in changing processes that support the needs of our patients, staff and physicians. Her energy and loving attitude are inspiring to others.

## Quality Pillar

### Pharmacy Department, Kishwaukee Community Hospital

The Quality Pillar encompasses goals that focus on creating a safe, clinically strong and effective environment for patients and staff.

The Pharmacy Department staff has found ways to improve patient care and to optimize collaboration between physicians and staff. The expansion of our pharmacy service to 24 hours a day, 7 days a week supports the technology of Bedside Medication Verification and makes a pharmacist available to consult with physicians, nurses, and patients around the clock.

This is a best practice in healthcare and one the team embraced for the benefit of our patients.

From left: Pamela Duffy, Vice President, Patient Care; Kristi Stice, Pharmacy Clinical Development Coordinator; Marlo Larson, Clinical Pharmacist; Ron Lubcke, Director of Pharmacy

From left: Mindy Kempinski, Kish Director of Health Information Management and Risk Management; Robert Jacobs, KHS Director of Financial Services; Stefanie Gamble, Kish Assistant Director, Health Information Management; Christine Cain, Valley West Manager, Health Information Management and Risk Management; Loren Foelske, Vice President, Finance; Beth Gale, Director, Case Management; Sandy Talley, Kish Financial Counselor

## Finance Pillar

### Denial-Turn-Around Team, Kishwaukee and Valley West Community Hospitals

The Finance Pillar incorporates goals that focus on fiscal responsibility, such as operating margins, productivity, supply costs and revenue. This multi-disciplinary team mobilized and standardized processes to decrease Medicaid and commercial insurance denials, recouping \$1.55 million.

Members of this team were Beth Gale, Director, Case Management; Stefanie Gamble, Kish Assistant Director, Health Information Management; Mindy Kempinski, Kish Director of Health Information Management and Risk Management; Robert Jacobs, KHS Director of Financial Services; Nancy Plote, Kish Coder/Data Analyst, Health Information Management; Jane School, Kish Supervisor, Continuity of Care; Sandy Talley, Kish Financial Counselor; and Christine Cain, Valley West Manager, Health Information Management and Risk Management.

## Growth Pillar Award

### Community Wellness Department, Valley West and Kishwaukee Community Hospitals

The Growth Pillar focuses on growing volumes and increasing market share and revenue. The Community Wellness Department managed dramatic increases in the number of individuals who went through the low cost HeartWise Cardiac Health Evaluation. Volumes increased 123% at Kish and 964% at Valley West. One example of the evaluation's life-changing impact is the case of a non-symptomatic gentleman. His battery of tests, including calcium scoring after a CT scan of coronary arteries, revealed a possible problem. He was referred to a cardiologist and had immediate open heart surgery at a regional heart center that saved his life.

From left: Ann Anderson, Department Secretary; Michelle Dragonuk, RN, Community Wellness Educator; Beckie Frieders, Health Promotion Specialist (VW); Margaret Dohnalik, Community Wellness Coordinator; Cindy Johnston, RN, Community Wellness Educator (VW); Beth Busching, RN, Manager; Joseph Dant, KHS Vice President, Business Development

## Top Can Do Attitude Employee Kathy Green, Transporter, Kishwaukee Community Hospital

Kathy was recognized for receiving the most "Can Do Attitude" acknowledgments and is an example of what going above and beyond means. She can be found helping to clean a patient room, picking up extra shifts, lending a hand for patient care on Med/Surg and then in the Emergency Department. She is one of those people helping KishHealth System be a great place for patients to receive care and for employees to work.

# MEASURING THE QUALITY OF PATIENT CARE

Kishwaukee and Valley West Community Hospitals track and evaluate numerous patient care practices that are known as “best practices” because they are associated with improved patient outcomes. About 30 of these are called “Core Measures.” These core measures focus on best practices in treatment, prevention and patient education in four categories:

- heart attack
- heart failure
- pneumonia
- surgical site infection

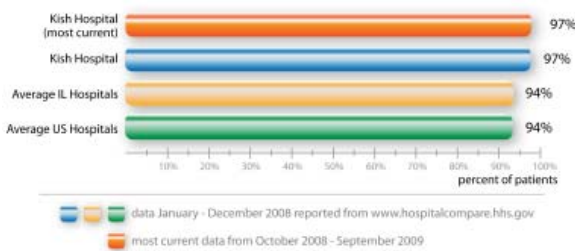

All hospitals that accept Medicare are required to report core measure data. This standardized reporting can help consumers learn more about the hospitals they choose for their care.

Collecting, analyzing and reporting core measure data not only help consumers learn about our performance, these actions provide continual feedback to physicians and clinical staff as we strive to provide the right care for every patient every time.

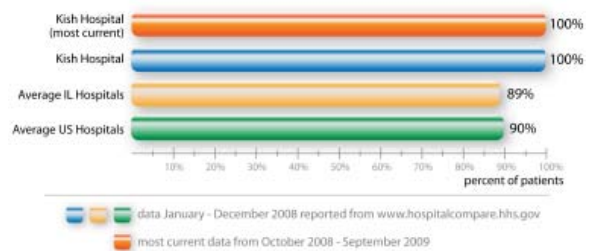

## Below are examples of our most recent core measure data.

Consumers can now view all the data and learn more about our commitment to clinical excellence at [www.kishhospital.org](http://www.kishhospital.org) and [www.valleywest.org](http://www.valleywest.org). Four measures from the website are shown below.

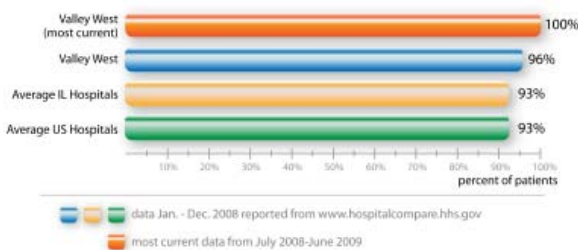

Kishwaukee Community Hospital  
**Percent of surgery patients who were given the right kind of antibiotic to help prevent infection**

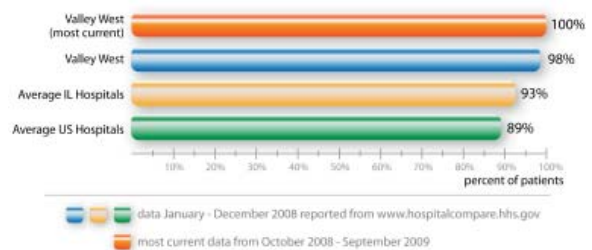

Kishwaukee Community Hospital  
**Percent of Heart Attack Patients Given ACE Inhibitor or ARB for Left Ventricular Systolic Dysfunction (LVSD)**

Valley West Community Hospital  
**Percent of Pneumonia Patients Given Initial Antibiotic(s) within 6 Hours After Arrival**

Valley West Community Hospital  
**Percent of Heart Failure Patients Given an Evaluation of Left Ventricular Systolic (LVS) Function**

# prevention education QUALITY

## ADVANCING CLINICAL EXCELLENCE

### Joint Commission renews Valley West accreditation

Valley West has received The Joint Commission's Gold Seal of Approval, which tells the public the hospital is in full compliance with all applicable Joint Commission standards. The hospital is surveyed every three years and successfully completed its triennial four-day survey in November.

The survey has been refined in recent years to better evaluate patient care, medication safety, infection control and safety of the hospital environment. "The surveyor was highly complimentary," said Brad Copple, Valley West President. "Staff members, managers, senior leaders, the medical staff and health system board members were all involved in the survey and did an outstanding job demonstrating the high quality of patient-centered care that is consistently provided at Valley West." Kish Hospital will have its triennial survey in 2010.

### Collaboration with Mayo Medical Lab

Kishwaukee and Valley West Community Hospitals are now collaborating with Mayo Medical Laboratories, a part of Mayo Clinic, for advanced laboratory services. The association gives both hospitals immediate access to complex tests performed by Mayo Medical Laboratories, Rochester, MN.

Specimens are transported via air to Mayo Medical Laboratories six days a week. Test results are usually available through a computer interface the following day.

Mayo Medical Laboratories pathologists and scientists in every specialty also are available to consult with hospital pathologists and other members of the medical staff.

### Valley West Maternity Suites delivers Level 2 care

Earlier this year the Illinois Department of Public Health designated Valley West Maternity Suites as a Level II perinatal facility for maternal and newborn care.

The designation means that clinical expertise and services are in place to care for maternal complications and more complex births, such as newborns in mild to moderate respiratory distress. Diagnostic imaging, laboratory services, and respiratory therapists are available 24/7.

### Valley implements advanced medication safety technology

Valley West is among an elite group of smaller hospitals that has invested in advanced medication safety technology. Bedside Medication Verification (BMV) uses bar codes on patient ID bands and on medications. It provides a system of double checks to make sure caregivers are giving the right dose of the medication to the right patient at the right time.

In hospitals throughout the nation, the BMV system has been shown to reduce medication administration errors by up to 50 percent, greatly increasing patient safety. Only 33 percent of hospitals nationwide, and only 20 percent of hospitals with less than 100 beds are using the technology. BMV also is being used at Kish Hospital.

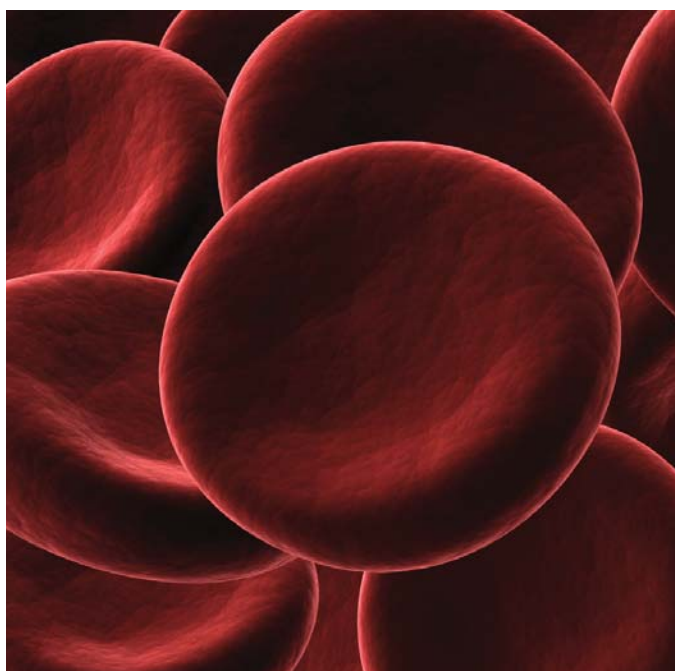

## PHYSICIAN-DRIVEN INITIATIVES

# RAISE LEVEL OF CARE

The practice of medicine extends well beyond what doctors learned in school. Doctors must stay abreast of new research, new technology, new medications and new procedures to provide optimal care for their patients. Below are a few of the new evidence-based practices doctors have brought to Kishwaukee Hospital.

### Blood glucose control in surgical patients

Emerging research proposes new guidelines for blood glucose control in critically ill patients that reduce the risk of patients developing hypoglycemia (low blood sugar). The team of physicians and clinical staff working on this initiative are focused on the care of patients with diabetes before, during and after surgery. A blood sugar level that is too high increases the risk of infection which can delay wound healing. A blood sugar level that is too low means that the brain and other vital organs do not receive the energy they need, putting the patient at risk for weakness, confusion, loss of consciousness and other complications. The goal of this team is to optimize processes for controlling blood sugar before, during, and after their hospital stay.

### Cooling protocol used in Intensive Care for near death events

The cooling protocol is used with critically compromised patients who are unresponsive due to cardiac arrest. Using a cooling blanket, the patient's body temperature is reduced to 89-92 degrees Fahrenheit. Cooling the body to this level has been shown to reduce the metabolism of the body and brain to improve neurological outcomes.

### New guidelines followed for IV nutrition

Optimal nutrition plays an important role in improving outcomes for critically ill patients. The traditional intravenous feeding program used when patients are unable to eat or drink through their mouth is being enhanced to reflect the most current guidelines and recommendations for nutritional value and calorie intake. Nutritional therapy, such as the infusion of fish oil, is used to reduce inflammation and has been clinically shown to reduce the number of days a patient stays in ICU or on a ventilator. Fatty acids, amino acids and antioxidants are also part of the IV cocktail that ICU patients receive.

technology research  
SPECIALIZED

# PATIENTS AND FAMILY PLAY KEY ROLE, TOO

## Rapid Response System

Kish and Valley West formed Rapid Response teams four years ago and have since expanded the concept. Family members are now encouraged to react to their gut feelings that something may not be quite right with their loved one.

Patients and family members, in addition to caregivers, can activate the Rapid Response System when they feel an emergency situation has arisen or when they need to get immediate attention from staff. When the patient or family activates the rapid response system, staff with special training responds to assess the situation and take action.

Signs are posted in every patient room instructing families how to activate the Rapid Response Team.

An inspiring story in the October 2009 issue of *Good Housekeeping* chronicles how a mother's grief led to this important national patient safety initiative that has brought the Rapid Response System to hospitals across the country. Kish and Valley are proud to be one of the early adopters of this system.

## Surgical site infection prevention

A section on the hospitals' websites is devoted to educating surgical patients and their families about what to expect and how to prepare for their surgery. While our practitioners take many steps to prevent surgical infection (as identified in our core measures), another important aspect is what the patient and family can do to prevent an infection before and after surgery.

# What YOU CAN DO To Prevent a Surgical Infection

### Before your surgery:

- Tell your doctor about other medical problems you may have. Health problems such as allergies, diabetes and obesity could affect your surgery and your treatment.
- Quit smoking. Patients who smoke get more infections.
- Do not shave near where you will have surgery. Shaving with a razor can irritate your skin and make it easier to develop an infection. Hospital staff will use special clippers to remove hair the morning of surgery.

### After your surgery:

- Family and friends who visit you should not touch the surgical wound or dressings.
- Family and friends should clean their hands with soap and water or an alcohol-based hand rub before and after visiting you. If you do not see them clean their hands, ask them to do so.

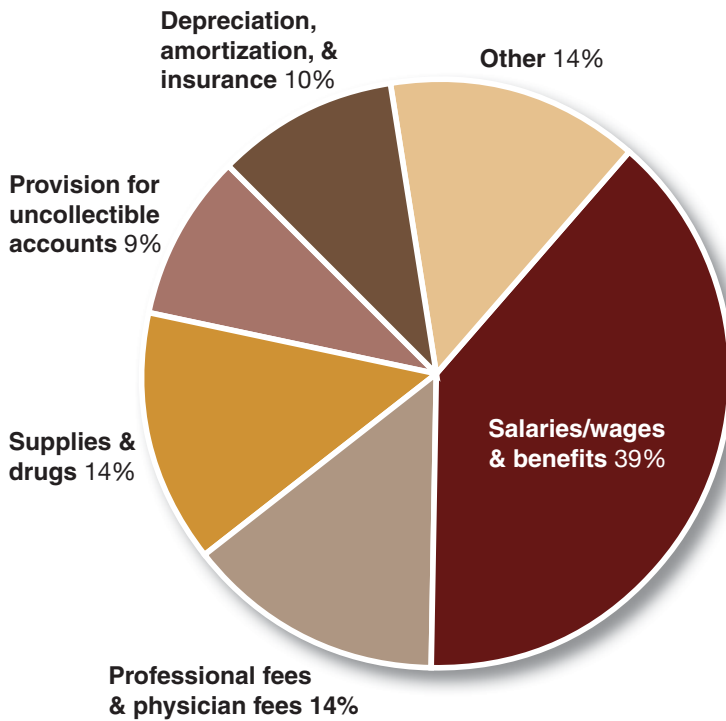

### When you go home

- Always clean your hands before and after caring for your wound.
- If you have any symptoms of an infection, such as redness and pain at the surgery site, drainage or fever, call your doctor immediately.

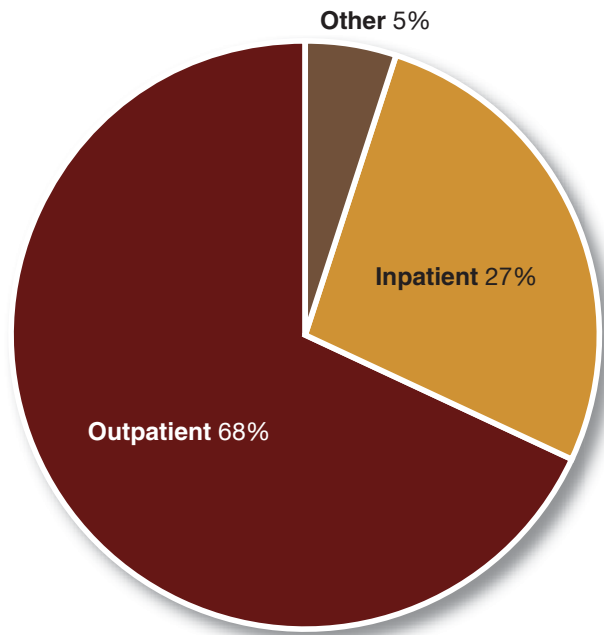

# OPERATING & FINANCIAL STATISTICS

## KISHHEALTH SYSTEM

### FY 09 total operating expenses \$188.8 MILLION

### FY09 unrestricted revenues, gains and other support \$192.4 MILLION

**EXCESS REVENUE OVER EXPENSES FOR REINVESTMENT BACK TO THE COMMUNITY: \$3.6 MILLION**

### KishHealth System Key stats

Number of employees ..... 1,294  
 Members of medical staff ..... 270  
 Outpatient visits ..... 219,907  
 ED visits ..... 39,788

Admissions ..... 7,806  
 Surgical procedures ..... 10,770  
 Volunteer hours ..... 33,617  
 Staffed beds ..... 125

# benefits assistance COMMUNITY

## COMMUNITY BENEFITS FOR FISCAL YEAR 2009

As reported to the Illinois Attorney General's Office. Community benefits for FY 2009 increased 25% over the previous year.

<b>\$2,057,261</b>	<b>Charity Care:</b> Cost of free and discounted care provided to those who could not afford care.
<b>\$20,446,856</b>	<b>Bad Debt:</b> Charges written off because individuals could not or refused to pay their full bills.
<b>\$27,300,531</b>	<b>Government Sponsored Indigent Care:</b> Unreimbursed costs for Medicaid and Medicare patients.
<b>\$10,423,084</b>	<b>Subsidized Health Services:</b> Diabetes Education, Social Services, Emergency Medical Services, bariatric services, Community Wellness, Continuing Medical Education, Child Development Clinic, Employee Assistance Program for public and employees, patient transportation, new mom and baby follow up visits, obstetrics, radiology and anesthesia coverage, and physician recruitment.
<b>\$347,612</b>	<b>Education:</b> Scholarships provided by the Auxiliaries and Health Foundation; medical library for patient, doctor and employee use; nursing education and other student training programs for Northern Illinois University and Kishwaukee College.
<b>\$216,441</b>	<b>Language Assistance Services:</b> Cost of providing Spanish interpreters 24/7 and translation services for other languages; also, communication services for the visually and hearing impaired.
<b>\$430,485</b>	<b>Donations:</b> Sponsorships and in-kind donations to non-profit community and health organizations, such as Kishwaukee United Way, Family Service Agency, Ben Gordon Center; youth, school and college sports; the arts, education, American Cancer Society, March of Dimes; equipment and furniture from the old hospital.
<b>\$536,628</b>	<b>Volunteer Services:</b> Time and money spent by employees aiding other community groups, such as Meals on Wheels, Relay for Life, Diabetes Step Out Walk, March of Dimes, March for Babies, Midge and Miles Underwood Memorial Golf Tournament, adopt a child/family for holiday giving, Chambers of Commerce; employee contributions to United Way, Kishwaukee Health Foundation and DeKalb County Hospice; operating a hospital-based Volunteer Services program.
<b>\$660,131</b>	<b>Other:</b> Employee participation in health system Community Wellness Fairs, publications for community education, planning community health clinic for uninsured/underinsured, Unlimited Performance Rehabilitation and Sports Medicine community support programs promoting exercise and fitness, property taxes and sales tax for community support.

2009 Total = **\$62,419,031**

## Barriers coming down in communicating with patients

In addition to seven Spanish-speaking interpreters who provide services at Kishwaukee and Valley West Hospitals the hospitals have recently added two new tools.

Videoconferencing equipment via a laptop computer provides real time sign-language communication for patients who are hearing-impaired. A dual handset phone system allows instant interpretation for patients who speak a foreign language.

# And Beyond

## FULFILLING PATIENT AND COMMUNITY NEEDS

Community hospitals are given non-profit status because of the benefits they give back to the community and to patients that go beyond just providing medical care. Every year, the health system files reports with the IRS and the Illinois Attorney General's Office, detailing our annual community benefit activity and expenditures.

The health system's Community Benefit Plan takes into consideration community health needs identified by the DeKalb County Health Department. The county plans are updated every five years, and the last update was in 2007.

### **DeKalb County community health needs are:**

- Patient access to care
- Cardiovascular disease
- Diabetes

### **KishHealth System's community benefit efforts also focus on:**

- Emergency medical services and disaster preparedness
- Hospital-sponsored community wellness classes and outreach
- Scholarships and student clinical training
- Monetary and in-kind donations
- Providing hospice care through DeKalb County Hospice
- Financial support to improve community health through the Kishwaukee Health Foundation

thoughtful helpful  
FULFILLING  
serving assisting

# PATIENT ACCESS TO MEDICAL CARE

## Charity Care

An underlying principle of the health system's financial assistance policy is that fear of a hospital bill should never prevent any patient from seeking essential healthcare for medically necessary services. The health system also helps cancer patients who cannot afford their medications.

In fiscal year 2009, financial assistance to patients totaled \$4.6 million in charges, benefitting 1,968 patients.

## Sometimes all it takes is knowing who to ask

When one patient received some concerning news, she said she just couldn't afford any more problems. She had reached her doughnut hole (*an insurance prescription gap that requires her to pay 100% of her medications*) and had made the decision not to refill her medications for that month. Not only was she on a maintenance cancer drug, she was taking medications for other medical conditions.

Kishwaukee Cancer Care Center staff contacted her primary doctor and through drug samples and available pharmaceutical assistance programs, she was able to receive her medications. It didn't change her conditions, but she left with her mind at ease knowing she would receive the help she needed.

## Valley West Community Hospital

KishHealth System has invested millions of dollars to help make the 25-bed Valley West Community Hospital in Sandwich a vital provider of essential health services for the rural areas in the southern part of the county, and parts of Kendall and LaSalle counties. Valley West is a federally-designated critical access hospital.

## Satellite facilities

KishHealth System moved KishHealth Family and Specialty care from Shabbona to Waterman in November to provide greater access to doctors along the U.S. 30 corridor. A pediatrician and an internist see patients there by appointment. In addition, diabetes educators see patients in Genoa, and Unlimited Performance Rehabilitation and Sports Medicine, a department of Kishwaukee Community Hospital, has satellite facilities in Genoa and Hampshire.

Valley West Rehabilitation has facilities in Sandwich and Yorkville.

## Community Cares Clinic

A two-year effort came to fruition in August with the opening of the Community Cares Clinic in the NIU Family Health, Wellness and Literacy Center, 3100 Sycamore Road, DeKalb. The clinic, a collaborative health service of KishHealth System and Northern Illinois University, provides affordable, primary medical care for the Medicaid and uninsured population, as well as those with private insurance.

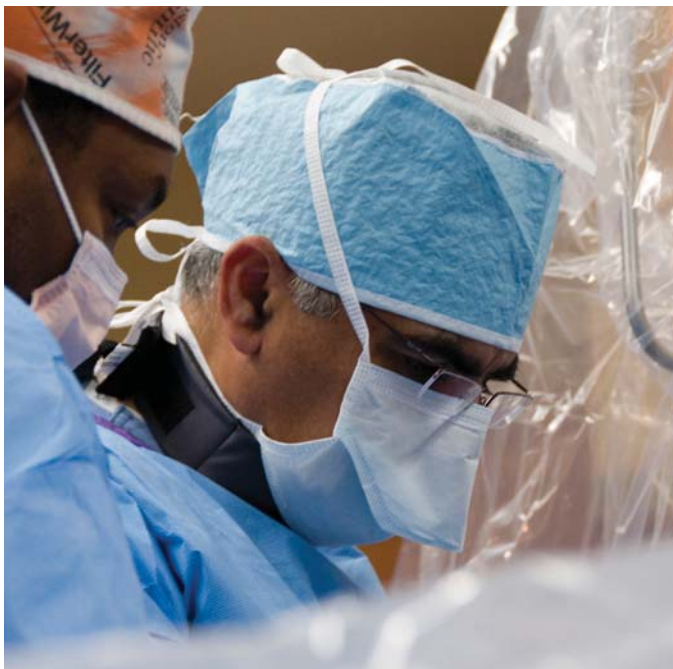

The physician assistant at the clinic and other staff are bilingual in English and Spanish, another way the health system is improving access to medical care for underserved populations.

# CARDIOVASCULAR DISEASE

## Doctors and Higher Levels of Care

For the past several years, Kish Hospital and Valley West have expanded the number of cardiologists on their medical staffs. Valley West moved its Cardiac Rehab program to a new, more modern location on the hospital campus, and in May 2009, Kish Hospital opened a Cardiac Catheterization Lab. The high tech lab is allowing more patients to stay in the community for emergency and diagnostic cardiac procedures. Since May, more than 650 outpatient and inpatient procedures have been performed in the Cath Lab.

David Johnson (left), Interventional Lab manager, and Dr. Asim Nisar, interventional cardiologist and director of cardiovascular services, in the new Cardiac Cath Lab at Kish Hospital.

## Prevention and Education

Our attention to cardiovascular disease also focuses on prevention through free blood pressure clinics and many healthy lifestyle classes offered through the Community Wellness Departments at Kish and Valley West. The number of individuals who took advantage of our low cost HeartWise Cardiac Health Evaluation exploded this past year as well. The program has saved lives including at least one non-symptomatic individual who required immediate open heart surgery based on the results of his evaluation.

## Quit Smoking

We all know that smoking contributes to many health problems, so our efforts to get people to quit are frequent and for the most part free. If you attend all five of the Quit Smoking classes, your \$25 fee is refunded.

*Pat Bute (left) used our Quit Smoking class to support her decision to stop smoking. Through weekly sessions with Community Wellness Nurse Educator Martha Kieffer (right), she learned techniques to bolster her success. One of Martha's suggestions was to save the money she would have spent on cigarettes. Martha asked the group, "What would you do with \$1,500?" Pat is now deciding what to do with her \$1,100 (and growing) bank account!*

Kick start your own healthier habits with the **Healthy Monday initiative**. Learn more at [www.kishhealth.org/healthymonday](http://www.kishhealth.org/healthymonday).

# DIABETES

Several years ago, in response to patient need and growing concern about the epidemic nature of diabetes in the community, Diabetes Education Centers were opened at Kishwaukee and Valley West hospitals. Diabetes educators and dietitians work together to teach patients how to self-manage their disease. Through

# SUPPORT

monthly group classes, patients learn how to deal with the challenges of living with diabetes and receive support from others going through the same thing. This past year, the diabetes centers did 6,331 consultations.

# certified exceptional PREPARED

And Beyond

## EMERGENCY PREPAREDNESS

**An ambulance rushing a sick or injured person to the hospital is a daily occurrence. Unless you've been a patient on an ambulance, you may not realize all that goes on behind the scenes to assure readiness for your emergency.**

As members of the KishHealth EMS System, the paramedics and emergency medical technicians on the ambulance are trained by Kish Hospital doctors, nurses and other certified emergency medical trainers. The first aid supplies are restocked by the hospital as well.

If the patient is having a heart attack, a 12-lead EKG machine is used to transmit critical vital signs to the Emergency Department so staff can be ready to act quickly to save a life. If the patient has been involved in an accident, the steps the paramedics take to stabilize that patient are all part of the protocols written and taught by the hospital's emergency medicine experts. If there is a disaster with multiple injuries, the response has likely been practiced many times through disaster drills orchestrated by the hospital and the providers in the KishHealth Emergency Medical Services System.

In September 2008, the hospital staged its biggest disaster drill ever involving 90 local Boy Scouts,

hospital personnel, local police, fire and EMS providers; DeKalb County American Red Cross and Voluntary Action Center. The scenario was a tornado at a local elementary school, involving 60 victims. In addition to the disaster drill, the Boy Scouts camped out overnight on hospital grounds, and hospital personnel provided training for their emergency preparedness merit badge. This event required many hours of planning. Afterward, lessons learned were turned into better response plans for the future.

## HELICOPTER READY TO GO

The Lifeline helicopter is frequently sitting in front of Kish Hospital thanks to an agreement reached last year with OSF St. Anthony Medical Center, Rockford. OSF is keeping the helicopter at Kish as much as possible to provide more rapid service for the community and our patients.

The local helicopter reduces flight response times for emergency medical situations throughout the county, especially from accident scenes.

## COMMUNITY WELLNESS

### Bringing wellness to the classroom

Pediatrician Tess Grant was advising one of her young patients on the cough into the crux of your arm or “cover your cough” technique for proper coughing, when the 11-year-old boy stopped her. “I know all about that,” the 5th grader said proudly. “The Valley West nurses came to our class and taught us.”

Cindy Johnston, RN, Valley West Community Hospital Wellness Educator, said that story made her day. “It’s heartening to know that our classroom visits are having an impact.” Johnston said.

Valley West Community Wellness increased school programs by 1,230 percent in fiscal year 2009, reaching 2,300 students, pre-kindergarten through high school. Kish Hospital Community Wellness increased school visits by 205 percent, reaching 3,954 students. Hand washing, personal hygiene, good nutrition and making healthy choices are among the topics covered by the hospital Wellness educators to meet Illinois learning standards.

These standards cover health promotion and prevention, treatment of illness and injury, understanding human body systems and factors that influence growth and development, and promoting and enhancing health and wellbeing through effective communication and decision-making skills. In addition, Community Wellness hospital-based programs for pre-teens include baby sitter training, and girls and boys only classes that focus on puberty, self-esteem and personal health.

### Valley West Community Hospital Wellness Educators

Cindy Johnston RN, and Beckie Frieders, Health Promotion Specialist, teach proper hand washing with “Henry the Hand” to students at St. Mary Catholic School in Plano.

- 6,254 school children reached through Community Wellness classes in the schools.
- 317 participated in the two-day Safe Sitter class for pre-teens.
- 436 tuition waivers given for childbirth education classes, including 29 participants in “Prepared Childbirth for Young Moms,” a class especially for pregnant teenagers.

# MONETARY AND IN KIND DONATIONS

KishHealth System provided \$430,485 in monetary and in-kind donations to organizations that strengthen health, education, social and youth services in the community.

DeKalb County Relay For Life

Lower Fox Valley Relay For Life

March Of Dimes

# SCHOLARSHIPS AND STUDENT TRAINING

KishHealth System spent \$347,612 the past fiscal year for professional and clinical education, providing healthcare scholarships, clinical training for college students, job shadowing for vocational high school students, a summer paid internship program, and maintaining a medical library for staff, student and visitor use.

- **\$22,600 in healthcare scholarships** awarded by Kish Hospital Auxiliary
- **\$9,900 in healthcare scholarships** awarded by Valley West Hospital Auxiliary
- **\$4,000 in healthcare scholarships** awarded by Kishwaukee Health Foundation
- **19 paid summer internships** for Kishwaukee College nursing students
- **83 nursing students** from Kishwaukee College and Northern Illinois University
- **9 high school students job shadowing** from Kishwaukee Education Consortium

# HEALTH FOUNDATION FOCUSES ATTENTION ON ADVANCING TECHNOLOGY AND CANCER CARE

Winding down the impressive \$9 million capital campaign for the new Kishwaukee Community Hospital, the Kishwaukee Health Foundation has turned its full attention to raising funds to address other medical needs within the health system.

These efforts support equipment purchases, scholarships, programs and other needs for Kish and Valley West Hospitals. The Health Foundation also supports DeKalb County Hospice.

## Assets as of August 31, 2009

Cash & Investments .....	\$3,748,981
Pledges .....	\$1,008,850
<b>Total .....</b>	<b>\$4,757,831</b>

### Kishwaukee Community Hospital Friends for Life Fund

In 2009, Kishwaukee Community Hospital added bone densitometry to its diagnostic imaging capabilities. Thanks to the generous support from community donors, bone density is a new service to help in the prevention and treatment of osteoporosis. \$52,000 of Friends for Life Funds covered the full cost of the equipment.

### Valley West Heart of the Hospital Fund

The newest generation, Siemens S5000 Ultrasound System, for Valley West Community Hospital's Diagnostic Imaging Department is being purchased for cardiac imaging, vascular studies, obstetrics and general imaging. This purchase, made possible by community donors, will have a direct impact on the care and results delivered to Valley West patients. \$104,000 of Heart of the Hospital funds will be used to help purchase the equipment.

### KishHealth Cancer Care Services Funds

It's not surprising that so many in our community open their hearts and their checkbooks when it comes to helping family, friends and neighbors fight cancer. As a result of this giving spirit, the Health Foundation has been able to add several new funds dedicated to cancer care. Contributions ensure ongoing care, treatments and services for patients far into the future. More than \$5,600 has been used to help our cancer patients.

**The Oncology Support Programs Fund** helps provide support for patients and their families through massage therapy, exercise programs, support groups, art therapy, music therapy and stress reduction classes.

Gifts to the **New Cancer Care Facility Fund** are being earmarked for the new building's healing garden, patient resource area, boutique, classrooms, and other areas of comfort and education for patients and their families. (Plans for the new Kishwaukee Cancer Center are detailed on the next page.)

**The Thebeau Charity Cancer Fund and Baack Charity Cancer Fund** provide financial assistance to eligible DeKalb County cancer patients for treatment, diagnosis, procedures, medications and medical supplies within KishHealth System.

**Unrestricted Cancer Care Fund** offers the most flexibility to meet our needs today and into the future. This fund supports programs and services where they are needed most.

**Oncology Equipment & Technology Fund** is used for the advancement of treatments and programs related to oncology.

# CHANGES COMING TO KISHWAUKEE CAMPUS NEW CANCER CENTER PLANNED

The KishHealth System Board of Directors has approved a new cancer center that will bring radiation oncology, medical oncology and hematology under one roof. Construction is expected to begin this spring, pending state approval. Completion is expected by late 2010.

The front entrance of the \$14 million, 26,500-square-foot Kishwaukee Cancer Center will face Sycamore Road and the back of the building will face the existing willow pond, providing a tranquil view for chemotherapy patients.

The center will include:

- **Illinois Regional Cancer Center (radiation therapy)**
- **Medical oncology wing**
- **Diagnostic imaging**
- **Laboratory**
- **2 classrooms**
- **Boutique for wigs and prosthesis**
- **Complementary medicine**
- **American Cancer Society Resource Center**

Excavation, moving of utilities and installation of a temporary entrance and parking lot for Illinois Regional Cancer Center patients began in November. IRCC will remain open throughout the construction.

## DEKALB COUNTY HOSPICE CHORDS THAT HEAL AND BRING PEACE

**DeKalb County Hospice** has fully incorporated the use of music therapy into its hospice services. At any given time the music therapist is seeing 50-90 percent of hospice patients, and is also involved in the Transitions Program and the children's bereavement groups. This past fiscal year, there were 5,346 hospice visits, and many of these were eased by the beauty of the music.

Music therapy is responsive to and respectful of family preferences, cultural influences and religious beliefs, and provides a vehicle for connecting to shared experiences, and to those identities that have defined us.

There have been many times when individuals are deemed "nonresponsive," yet respond to music, turning towards a loved one, reaching for a hand, or saying a simple "thank you."

It can be as simple as treasured hymns played softly on the harp, assisting an individual to relax and fall asleep, or it can be as involved as engaging in the song writing process with a patient and/or family members. Music therapy offers a unique, non-invasive and compassionate approach to end of life care.

Jen Conley is a board-certified music therapist and a Licensed Professional Counselor who has been trained extensively in the use of music for healing.

# KISHWAUKEE HEALTH FOUNDATION

Philanthropy assists KishHealth System in providing quality programs and services at Kishwaukee Community Hospital, Valley West Community Hospital and DeKalb County Hospice. Donations help us purchase advanced technology and add new services and programs that would otherwise not be possible. While unrestricted donations to the Health Foundation are encouraged, we recognize that most of our donors support us because they have a special place in their hearts for one or more of the entities we support. In addition to Cancer Care, other giving opportunities are described below and on the following pages.

## Kish Hospital Physicians' Medical Education Scholarship

The Kish Hospital Physicians' Medical Education Scholarship fund was established in 2004. This fund awards an annual scholarship to a DeKalb County resident who is enrolled in an accredited medical school curriculum. The scholarship is intended to assist and encourage young people to join the medical profession and ancillary health services professions. Recipient of the 2009, \$1,000 scholarship was Anna Booth.

## Floann & Hallie Hamilton Diagnostic Imaging Scholarship

Floann and Hallie Hamilton, longtime members of the Kish Hospital Auxiliary, established an annual scholarship to benefit a DeKalb County student enrolled in a diagnostic imaging curriculum. Recipient of the 2009, \$1,000 scholarship was Jessica Barber.

## James J. Feeney, MD Scholarship Fund

Dr. Feeney, an obstetrician and gynecologist, was a medical staff member at Kishwaukee Community Hospital and its predecessor DeKalb Public Hospital for more than 40 years. Following his death, his widow Kay and their daughters chose to create a scholarship in his name. Recipient of the 2009, \$1,000 Feeney Scholarship was Anna Booth.

## Nursing Development Fund

The Nursing Development Fund provides an ongoing mechanism to fund KishHealth System nurses pursuing opportunities to fulfill professional development goals. These goals will enhance clinical excellence in delivery of patient care at Kishwaukee Community Hospital, Valley West Community Hospital and DeKalb County Hospice.

Gifts to the Nursing Development Fund may be directed by the donor to the KishHealth System Fund or the Pamela Lewis Valley West Community Hospital Fund. The 2009 Nurses of the Year, Cynthia Fox, RN, and Beth Post, RNC, were each awarded a \$500 scholarship from this fund.

## Kishwaukee Health Foundation Endowment Fund

Endowment gifts provide a dependable, predictable source of funds for Kishwaukee Health Foundation and KishHealth System and assure the availability of services today...and many years into the future.

## Kishwaukee Health Foundation Legacy Society (formerly 21st Century Society)

Donors who have made planned or deferred gifts to Kishwaukee Health Foundation, or one of its supported entities— Kishwaukee Community Hospital, Valley West Community Hospital or DeKalb County Hospice— are automatically included as members of our *Legacy Society*. Bequests, charitable gift annuities, charitable remainder trusts, and life insurance gifts are a few of the ways donors can make a gift today that will help further our healthcare mission well into the future.

## Midge and Miles Underwood Memorial Golf Tournament

The Midge and Miles Underwood Memorial Golf Tournament is held annually to benefit DeKalb County Hospice. The event is coordinated by LPGA teaching professional Sandy Underwood and her sister, Mary Underwood Curran. The tournament is held in memory of their mother and father who introduced them to the sport of golf. Both Hospice patients, Midge died of cancer in the spring of 1998 and Miles died of Alzheimer's Disease in January 2009. Over the past 12 years the tournament has raised \$222,500. The MUM Golf Tournament and other fundraising events are critical to ensure that Hospice can continue to support the community's terminally ill and their families.

# KI SHWAUKEE HEALTH FOUNDATION

DONORS AND CONTRIBUTORS MAY 1, 2008 THROUGH AUGUST 31, 2009.

## Honoraria & Memorials

The strong community spirit of sharing and caring is reflected in the many honoraria and memorial gifts which the Health Foundation, Kishwaukee Community Hospital, DeKalb County Hospice and Valley West Community Hospital were privileged to receive during the past year.

## Friends for Life KCH 100

The annual giving fund for Kishwaukee Community Hospital was established in 1981. Funds raised through Friends for Life KCH 100 are used to help purchase healthcare equipment and technology for Kish Hospital. Money raised also supports our unrestricted endowment fund. Friends for Life KCH 100 members have given gifts totaling over \$2.2 million.

In 2009, a state-of-the-art bone densitometry system for Kishwaukee Community Hospital's Diagnostic Imaging Department was purchased using \$52,000 in donations to the Friends for Life KCH 100 Fund. Due to the generous support of our community donors, Bone Density is a new service we can offer our patients at Kish Hospital to

help in the fight against osteoporosis.

Each leaf on our Tree of Life or Forest of Life represents gifts of \$1,000 or more. Each stone represents gifts of \$10,000 or more. Life members have made gifts of \$1,000 or more.

## Heart of the Hospital

### Valley West Community Hospital

Heart of the Hospital annual giving fund was established in 2004. Funds raised through Heart of the Hospital are used to help purchase healthcare equipment and technology for Valley West. Money raised also supports our unrestricted endowment fund. Since 2004, Heart of the Hospital members have given gifts totaling over \$330,000.

A state-of-the-art Siemens S5000 Ultrasound System for Valley West Community Hospital's Diagnostic Imaging Department will be purchased using \$104,000 in donations to the Heart of the Hospital Fund.

The ultrasound system will be used for cardiac imaging, vascular studies, obstetrics and general imaging. This purchase, made possible by community donors, will have a direct impact on the care and results delivered to Valley West patients.

Leaves on our Tree of Life represent gifts of \$100, \$500 or \$1,000. The stones signify gifts of \$5,000 or more. Life members have made gifts of \$1,000 or more.

## DeKalb County Hospice Music Therapy

DeKalb County Hospice has fully incorporated the use of music therapy

into its hospice services. At any given time the music therapist is seeing

50-90 percent of hospice patients, and is also involved in the Transitions Program and the children's bereavement groups.

## DeKalb County Hospice

DeKalb County Hospice joined the KishHealth System family in 1998. The Hospice mission is to assist people to live with dignity and hope in ways that best meet their needs while coping with end of life issues. Hospice also supports grieving family and community members. Donations are an important source of revenue for bereavement services as well as care when clients are uninsured or when the cost of care exceeds the payment from insurance. Over the last five years, community donations have been over \$220,000 each year.

## Health. Heart. New Home.

**KishHealth System** has advanced a vision of unsurpassed healthcare excellence for our community by building a new Kishwaukee Community Hospital which opened its doors Oct. 2, 2007. The new Kish Hospital continues the tradition of local community ownership and will be the healthcare hub for generations to come.

Thanks to the generosity of the KishHealth System family and our community, we exceeded our \$7 million goal and raised just under \$9.5 million. The new Kish Hospital Community Campaign officially closed Oct. 2, 2008.

The campaign money is used to reimburse Kish Hospital for funds spent on the new building and equipment. Proceeds from the campaign have reduced the total debt and interest payment.

**Community  
Cares Clinic**  
The Community  
Cares clinic is a new  
community resource  
for individuals and  
families who do  
not have access to  
primary medical care.  
The Clinic provides  
primary care services  
for area residents  
with and without  
health insurance.

## Cardiac Rehabbers Support Group Fund

The Cardiac Rehabbers Support Group Fund provides grant money to qualified persons enrolled in, or to be enrolled in, Kishwaukee Community Hospital's Cardiopulmonary Rehabilitation Program. At the invitation of the Kishwaukee Health Foundation, the Cardiac Rehabbers Support Group Fund came under its management in September 2007. The fund was started by Alberta Dequin in March 2006 and so far has provided cardiopulmonary rehabbers \$6,420 in scholarships.

Since the beginning of the program, the Thrivent Financial for Lutherans organization has matched money raised by the Rehabbers' annual fundraiser. These matching funds have totaled \$2,860.

## Travel Donations

Since 1985, the Health Foundation has traveled with over 215 friends throughout the world raising more than \$253,000. In addition, these donors have made separate gifts to KHF totaling \$1,828,129

In May of 2009, the Health Foundation's travel adventure took 31 donors to France for a riverboat cruise plus Paris and experienced the beauty of Burgundy and Provence.
